

The Learning Groove

Music Classes for Families (for parents & children newborn to age four)

THE LEARNING GROOVE MUSIC CLASSES: Come join a weekly class where parents and children sing, dance, shake eggs, beat the drums, call and respond, clap, tap, laugh, skip, jump, pretend, learn and grow!

The Learning Groove's music classes and highly trained teachers help your child develop their:

- Rhythm, Pitch and Melody
- Language Skills
- Motor Coordination
- Creative Expression
- Imagination
- Cultural Awareness
- Interpersonal Skills
- Love and Happiness

"My little girl LOVES singing & dancing in music class. And we love how much she's learning & growing!" Jodi, mother of Ava – Atlanta, GA

HOW DOES THE LEARNING GROOVE WORK?

- The Learning Groove classes are given once a week. Each class is forty five minutes.
- The class is led by a The Learning Groove instructor who is carefully selected and highly trained by Mr. Eric and Mr. Michael.
- In every class you will sing, dance, play instruments, laugh, listen, jam along, march, chant, clap, wiggle, make stuff up, pretend, use rich language and explore and expand your child's amazing potential through the arts.
- There are four sessions offered each year (spring, summer, fall and winter). Each session is 10 to 12 weeks. We provide eight different sessions over two years each with a new and fabulous CD featuring new and exciting songs and activities.

THE MUSIC!

You receive an exceptional educationally designed music CD with every session. These are the songs you use in class. The music spans different genres from classical to rock and roll. We also include interactive poetry, drama and storytelling. Each unique CD contains a customized selection of key signatures, melodic patterns, tempos, rhythmic patterns, instruments and activities.

In class, you learn the simple music enrichment activities that accompany the songs. Then, you listen to the CD at home to reinforce what you have learned. The songs on these CDs utilized repetitively in class and at home will greatly benefit your child's musical growth as well as their overall academic potential.

Now, here's the deal. These CDs are NOT Barney (bad eighties) types of tunes! The music is authentic and fun for the whole family. Parents, we love you too, so the music is written and produced at a quality level not just to delight and educate the kids but also to please the adult listener. You will thank us for this later when your child forces you to play these CDs over and over again in the car and at home.

HOW ARE THEY LEARNING?

Learning with The Learning Groove is fun and joyful! Scientific research has proven over and over again that learning is best achieved in a loving, stimulating, safe, engaging and fun environment.

The most important learning strategy at this young age is the immersion and exposure to high quality music. The more they see their favorite role models (their parents and caregivers) singing, dancing and having fun, the more they pay attention and literally develop more brain synapses related to music aptitude and overall development.

WHAT IF I ONLY SING IN THE SHOWER?

OK.... You may want to sit down before you read this. Ultimately, you are your child's primary music teacher. Don't panic, The Learning Groove's classes are designed to teach and empower you to fulfill that role. We know you're busy so we are going to make it easy. All you need to do is fully participate in class (regardless of what your child is doing). In this way you will learn the songs and activities and become the role model for your child. Then continue this at home. It's that simple.

If you forget something, don't worry. We will be posting You Tube videos that show you what to do with each song (coming soon). Isn't that cool? Visit www.thelearninggroove.com.

WHEN SHOULD WE START THE PROGRAM?

Research shows us that the first years of your child's life are the most important for developing their musical abilities? Also, research has also shown that early music education helps improve their overall academic and social development. So the earlier you begin your child's music education the better. The program serves newborn to age four.

HOW LONG SHOULD WE STAY?

The more sessions you take the more your child benefits. The Learning Groove continues to introduce your child to new instruments, genres of music, new songs and classic children's songs. Each session reinforces and builds upon the material learned in previous sessions. So we provide you the opportunity to stay with us for two or more years, so your child may enjoy extraordinary growth.

LET'S GET STARTED!

Ok, now comes the fun part. Let's sing and dance and jam. Find a class today at www.thelearninggroove.com .
